Messaging Framework: Finding Our Voice

Six ways to position RigaCap — from the current approach to five alternatives. Built for feedback from beta testers and advisors.

February 2026

v1.0 · Confidential

The Core Insight

Every competitor in our space says some version of the same thing: *"AI-powered stock analysis tools for smarter trading."* They compete on features — more screeners, more indicators, more customization.

RigaCap doesn't work that way.

Users don't build strategies. They don't pick tickers. They don't configure parameters. They subscribe, open their dashboard, and see exactly which stocks to buy and when to sell. The system does the work. The user makes the call.

This is the gap between what we *are* and how we currently *talk* about ourselves. The word "signals" is accurate but generic. "AI-powered" is table stakes. We need language that communicates the real difference: **you don't use RigaCap — you follow it.**

What RigaCap IS

- ✓ A curated signal service with a proven track record
- ✓ A membership — subscribe and receive
- ✓ A system that does the analysis for you
- ✓ Opinionated: we tell you what we'd buy
- ✓ Simple: open, read, decide, act via your broker

What RigaCap is NOT

- — A stock screener or research tool
- — A platform you "use" or configure
- — A DIY toolkit for building strategies
- — Neutral: we don't show you both sides
- — A brokerage — we never touch your money

The question this document tries to answer: If someone asks "What is RigaCap?" — what do we want the answer to be?

FRAMEWORK A · STATUS QUO

"AI-Powered Trading Signals"

The current messaging, as it appears on rigacap.com today

Current Hero Copy

Beat the Market with
AI-Powered Trading Signals

Our Ensemble approach combines three proven factors — timing, momentum quality, and adaptive risk management — into one system that evolves through every market cycle.

Start Free Trial

Current One-Liner

```
~15 high-conviction signals per month — quality over quantity
```

Current Key Phrases

- "AI-Powered Ensemble Strategy"
- "The 3-Factor Ensemble Advantage"
- "From signal to profit in 4 simple steps"
- "Join thousands of traders using AI-powered signals"

HONEST CRITIQUE

What works: "Beat the Market" is bold and clear. The 3-factor structure gives specificity. Performance stats are strong proof points.

What doesn't: "AI-Powered Trading Signals" is generic — it describes 200+ competitors. "Ensemble approach" is jargon most people won't understand. The copy emphasizes *how* the system works (timing, momentum, risk) rather than *what the user gets* (curated buy/sell decisions). "Join thousands of traders" implies we're a tool for traders, not a signal service for busy people.

Risk: This positioning invites feature-by-feature comparison with cheaper tools. It attracts power users who want to tinker, not subscribers who want answers.

FRAMEWORK B

"The Signal Club"

A membership you belong to, not a tool you use

> RigaCap is a members-only signal service that tells you exactly which stocks to buy and when to sell — backed by a 5-year walk-forward track record.

Your Signals Are Ready.
Start Receiving.

RigaCap members get curated buy and sell signals delivered to their dashboard — no screening, no charting, no guesswork. Just open, read, and decide.

Join the Signal Club

One-Liner

```
"We do the analysis. You make the trade."
```

Alternate Headline

Curated Signals.
Clear Decisions.

No screeners to configure. No charts to read. RigaCap delivers a short list of high-conviction buy signals — and tells you exactly when to sell.

WHAT WE SAY

- ✓ "Members receive..." (passive, curated)
- ✓ "Your signals are ready"
- ✓ "Join" / "Membership"
- ✓ "We watch the market so you don't have to"

WHAT WE DON'T SAY

- ✗ "Use our platform" / "our tools"
- ✗ "Build your strategy"
- ✗ "Analyze stocks with AI"
- ✗ "Screener" / "Scanner"

Best for: Landing page, email marketing, social media bios, referral copy

FRAMEWORK C

"The Research Desk"

Institutional-grade research, delivered to individuals

> RigaCap is your personal research desk — the kind of quantitative analysis that hedge funds pay millions for, distilled into clear buy and sell signals for individual investors.

Hedge Fund Research.
Individual Access.

Our quantitative models analyze 6,500+ stocks across timing, momentum, and risk — and deliver a short list of high-conviction opportunities directly to you.

Get Research Access

One-Liner

```
"Wall Street research. Main Street price."
```

WHAT WE SAY

- ✓ "Quantitative research" / "analysis"
- ✓ "Our models identified..."
- ✓ "Research-backed signals"
- ✓ "Institutional-grade"

WHAT WE DON'T SAY

- ✗ "Trading tool" / "stock picker"
- ✗ "AI bot" / "robo-advisor"
- ✗ "Guaranteed returns"
- ✗ "Get rich" / "easy money"

Best for: LinkedIn, professional audiences, financial advisors, SEO content

FRAMEWORK D

"The Radar"

Detection and intelligence — you see what others miss

> RigaCap is a market radar that detects breakout opportunities before the crowd — using pattern recognition across timing, momentum, and market regime shifts.

See Breakouts
Before They Happen.

RigaCap's 7-regime detection system scans the entire market daily, surfaces emerging opportunities, and alerts you the moment conditions align.

Activate Your Radar

One-Liner

```
"Market intelligence, not market noise."
```

WHAT WE SAY

- ✓ "Detected" / "Surfaced" / "Identified"
- ✓ "Before the crowd"
- ✓ "Market intelligence"
- ✓ "Signal, not noise"

WHAT WE DON'T SAY

- ✗ "Predict the market"
- ✗ "Never miss a trade"
- ✗ "Secret algorithm"
- ✗ "Insider" anything

Best for: Twitter/X, YouTube thumbnails, retargeting ads, teaser content

FRAMEWORK E

"The Edge"

Performance-led — let the numbers talk first

> RigaCap is the quantitative edge that turned $10,000 into $38,900 over five years of walk-forward testing — with every signal, every exit, and every drawdown on the record.

289% Over 5 Years.
Every Trade on the Record.

Not backtested. Walk-forward validated. RigaCap's Ensemble system delivered 31% annualized returns with full transparency — see every signal, entry, and exit.

See the Track Record

One-Liner

```
"Transparent performance. Verifiable results. Your edge."
```

WHAT WE SAY

- ✓ "Walk-forward validated" (not backtested)
- ✓ "On the record" / "Fully transparent"
- ✓ "Verifiable track record"
- ✓ Specific numbers with time periods

WHAT WE DON'T SAY

- ✗ "Guaranteed" / "risk-free"
- ✗ "You'll make X%"
- ✗ Future performance promises
- ✗ "Beating the market is easy"

Best for: Track record page, comparison content, skeptic audiences, paid ads

FRAMEWORK F

"The Anti-Tool"

Contrarian simplicity — fewer features is the feature

> RigaCap isn't a trading platform and it isn't a stock screener. It's the opposite: we removed every feature except the one that matters — telling you what to buy and when to sell.

No Screeners. No Charts.
Just Answers.

Most platforms give you 50 tools and hope you figure it out.
RigaCap gives you one thing: a short list of stocks to buy and clear rules for when to sell.

Get the Answers

One-Liner

```
"The trading app with no trading tools."
```

WHAT WE SAY

- ✓ "No configuration required"
- ✓ "Open. Read. Decide."
- ✓ "We removed everything except answers"
- ✓ "Simple by design"

WHAT WE DON'T SAY

- ✗ "Powerful platform" / "feature-rich"
- ✗ "Customizable"
- ✗ "Advanced tools"
- ✗ "Take control" (implies work)

Best for: Product Hunt, tech audiences, people burned out on complexity, social ads

We Want Your Feedback

These frameworks aren't mutually exclusive — the final messaging might blend elements from several. Your honest reactions help us find the right voice.

1. Which headline grabbed you first?

Think about your gut reaction, not what sounds "correct." Which one made you want to keep reading?

A	"Beat the Market with AI-Powered Trading Signals"
B	"Your Signals Are Ready. Start Receiving."
C	"Hedge Fund Research. Individual Access."
D	"See Breakouts Before They Happen."
E	"289% Over 5 Years. Every Trade on the Record."
F	"No Screeners. No Charts. Just Answers."

2. Which description best explains what RigaCap actually does?

If you were telling a friend about RigaCap, which one-liner would you steal?

A	"~15 high-conviction signals per month — quality over quantity"
B	"We do the analysis. You make the trade."
C	"Wall Street research. Main Street price."
D	"Market intelligence, not market noise."
E	"Transparent performance. Verifiable results. Your edge."
F	"The trading app with no trading tools."

3. What's still unclear after reading this?

What questions would you still have? What would make you hesitate to sign up?

4. If you could mix and match, which elements would you combine?

e.g., "Headline from D + description from B + CTA from F"

Thank you for your time. Your feedback directly shapes how we present RigaCap to the world. Responses are confidential and will only be used to refine our messaging.
